Dreidel Building Instructions

The dreidel uses the bricks upside down! Don't worry – it works out great!

<p>Using four of the 1x3 bricks, make a hollow box on the outer part of a 4x4 plate.</p>	
<p>Build another layer on top of this using the remaining four 1x3 bricks. Stagger them so the seams are in different places.</p>	
<p>Place the second 4x4 plate on top of this hollow box.</p>	
<p>On the top of the box, place the four 1x2 slope pieces in a pinwheel fashion.</p>	
<p>In the center of the pinwheel you just built, insert the 1x1 round plate.</p>	
<p><i>Now turn your dreidel upside down</i> – you only need to build the handle now. Place the 2x2 plate (upside down) in the center of the top of the dreidel.</p>	
<p>Make a handle by stacking two 1x1 barrels on top of each other.</p>	
<p>Insert the handle into the center of the 2x2 plate, where there is a circle into which it fits perfectly!</p>	

Place stickers on the dreidel and start playing!
