Why a Health Care Proxy is not enough - get the most out of MOLST (Medical Orders for Life-Sustaining Treatment) with Susan Cember

Health Care Proxies and Living Wills do not translate your wishes into specific, actionable medical orders. The MOLST form, on the other hand, tells your designated Health Care Proxy representative and doctors exactly what your wishes and values are regarding life-sustaining treatments, should you ever be hospitalized and unable to make your own medical decisions. We will discuss different scenarios and why nothing should be left to guesswork when it comes to your medical care. Your experiences and questions are welcome.

**Sunday, March 22 at 4:00pm** – Wine Tasting Event

Get ready for Passover! Join us to learn about several hand selected wines and spirits made in Israel. There will be wine and hors d'oeuvres to enjoy - and Rabbi David will have the opportunity to speak.

**Save the Date: Saturday, April 25, 2026 at 7:00pm - TBA Gala: Honoring Rabbi David!**  
**Purchase tickets to attend the Gala and place a journal ad - available online.**
